

## Ultra Jet DLE-JF

Match the LUS170 on the UCJV series!

The Ultra Jet DLE-JF is specially designed for the Mimaki UCJV series. It can be cured with LED lamps and offers full chemical compatibility to the LUS170. Due to its excellent flexibility and print stability, the ink system Ultra Jet DLE-JF meets the highest demands.

### Application

The LED-curable Ultra Jet DLE-JF is suitable for printers and printhead technologies like:

- UCJV series (Ricoh Gen 5)

### Range of substrates

- PVC Banner
- self-adhesive films
- Polycarbonate foils
- Backlit
- Mesh
- Printable fabrics such as Trevira®, and artificial leather

### Your Benefits

- **Switch & Match - Chemical compatible to LUS170**  
No rinsing is necessary when changing from LUS170
- **NVC-free ink**  
As an EUPIA member Marabu does not use VCL
- **Superior ink properties**  
Printing stability, adhesion range & curing behaviour
- **High quality pigmentation and extended gamut**  
Especially developed for outdoor use
- **Made in Germany**  
Developed and produced under strict tolerances to ensure highest quality
