

Formula change for improved ink flow

Advantages of the new formula

Improved ink flow

→ Especially with coarse mesh (77-55)

Higher chemical resistance

→ Alcohol resistance:

So far: Level 5 with 40 double rub strokes

New: Level 2 with 40 double rub strokes

Extended pot life

→ So far: 6 h

New: 8 h

All other features of Marapoly P remain unaffected by this change.

Date of change-over

This replacement becomes effective starting with batch 435. To clearly emphasize this change you will find an additional label on each container stating:

“Attention! Improved Formula”
