

Low Odour – High Performance

Do you need a Roland plug & print ink system that features suitability for a wide substrate range, coupled with highest resistances? Marabu® Jet DI-LSX satisfies your and your customer's needs: Great performance even on low-priced materials, for perfect results.

Applications

Mara® Jet DI-LSX was especially developed for Roland printers which can be operated in the Eco Sol Max ink configuration

Mara® Jet DI-LSX may also be used on printers with identical construction employing Roland inks, or similar.

The DI-LSX substrate range includes

- different qualities of PVC self-adhesive foils (monomeric, polymeric and cast PVC films)
- other PVC coated materials and tarpaulins
- Flexfoil for T-shirt transfer and suitable papers

Characteristics	Mara® Jet DI-LSX
Plug & Print Compatibility	+++
Resistance	++
Drying	++
Printing stability	+++
